## QRP International

PMO usergroup Member

November 2019 - December 2021 (2 years 2 months)

Brussels Hoofdstedelijk Gewest, België

QRP International has a long experience in organising training for project, programme and portfolio managers. QRP has assisted many professionals and their organization in setting up and running a PMO. Following a training is a first step in getting inspired. Translating this inspiration into practice is the second step and in traditional training, this is not part of a course and each delegate is left alone. The road to successfully implement what you have learned is often hard and lonely as a strategic PMO is just a few (or even one) persons within a large organisation.

This user group has the aim to respond to this need. The goal is to bring similar backgrounds and profiles together to discuss specific topics within PMO management.

## Academics For Companies

Trainer - Learn track "Business Skills Track" - Project & Programme management

March 2017 - December 2021 (4 years 10 months)

Leuven, Belgium

Bij Academics for Companies slaan we een brug tussen studenten en de bedrijvenwereld waarin zij later terecht zullen komen.

AFC is de plaats bij uitstek om jezelf te ontwikkelen aan de hand van onze leuke explore, learn and apply. Dit alles in combinatie met een hoge dosis fun en ontspanning, zorgt voor de ideale sfeer in een unieke leeromgeving.

Onder de tak 'learn' willen we een aanvulling bieden boven op de academische opleidingen van de studenten. Daarom organiseren wij een reeks interactieve workshops, per onderwerp gebundeld in een 'Track', waarbij studenten hun soft skills kunnen aanscherpen.

Om studenten op korte tijd belangrijke vaardigheden aan te leren en interessante onderwerpen aan te reiken, organiseert AFC onder zijn Workshops-pijler een reeks Tracks waarbij studenten hun soft skills kunnen bijschaven. Elke Track is opgesteld rond een centraal thema en bestaat uit vijf workshops.

Om de kwaliteit en beleving van de workshops te waarborgen, worden de groepen bewust beperkt gehouden om zo de nadruk te kunnen leggen op interactiviteit
